Profile

- **CODING ENTHUSIAST | FULL STACK WEB DEV**

I'm a second-year student pursuing my B.Tech in Computer Science and Engineering (CSE) at **PCCOE** Pune Campus.

Objective

- I am always ready to have new experiences, meet new people, and learn new things. Also, I like pushing myself and taking up new challenges.

Career Interest

- My interests lie in Frontend as well as in Backend Web Development, Data Structures & Algorithms, and Applied Mathematics.
- **“Engineering is my passion, Learning is my attitude and Coding is my tool”**

Education

- | | |
|---|---|
| ● Pimpri Chinchwad College of Engineering, Pune
B.Tech (Computer Science and Engineering) | CGPA: 8.95
(Dec 2021 - Jun 2025) |
| ● MHT-CET 2021 | Score: 98.63%ile |
| ● XII (HSC) Nav Maharashtra Junior College, Pimpri, Pune | 91.17% 2021 |
| ● X (SSC) Nav Maharashtra Vidyalaya, Pimpri, Pune | 93.20% 2019 |

Projects

- **Learning Resource & Development Centre (LRDC) : Education Platform | HTML, CSS**

A platform where teachers can upload their study material and students can easily access this study material. Especially focus on the data. A fully front-end-based website with a little bit back-end and database. Based on HTML and CSS only.

- **Spotify Clone : Music Platform | HTML, CSS, Javascript**

Developed a platform where everyone can listen to my favourite songs. Specially worked on User Interface (UI). A fully front-end-based website with no back-end and database. Complete use of HTML, CSS and Javascript.

- **Contact Form : Get In Touch | HTML, CSS, Javascript**

A contact page for the customers to contact the organization. Focus on each and every part of the web page. Especially focus on the SMTP Server. Based on HTML, CSS and Javascript.

Extra-Curricular Activities

- Teaching and Mentoring (Teaching and Guiding young Juniors at my level)
- Exploring my mirror image
- Cricket (Watching and Playing Cricket)
- Hodophile (Trekking and Travelling)

Final Year Project

- **ERP System For PCCOE : Education Platform | MEAN STACK**
- An Education Platform for the university where Teachers, Students and Organisation can interact with each other. A full stack website using **MEAN**.

Technical Skills

• Languages:

C/C++(Proficient), Java

• Frontend:

HTML, CSS, Javascript, React, Angular

• Backend:

Node.JS, MongoDB

• Developer Tools:

VS Code, Xcode, Git, Eclipse, Github

Social Skills

- **An Elocutionist**
- In the next few decades, India will rise as a powerful country in the world with a maximum number of young hustlers and India will become home to a 4th of the world's youth. I guide these young juniors at my level to find their true niche so that they can get up India to the top.
